# Care and Maintenance

## General

This Nursery Swing was designed and manufactured with quality materials and craftsmanship.

If correct care and maintenance is provided, it will provide users with years of exercise, fun and enjoyment.

### Inspect regularly for:

- CHECK ALL NUTS AND BOLTS TWICE MONTHLY DURING THE USAGE SEASON FOR TIGHTNESS AND TIGHTEN AS REQUIRED. IT IS PARTICULARLY IMPORTANT THAT THIS PROCEDURE BE FOLLOWED AT THE BEGINNING OF EACH SEASON.
- Never use pliers to tighten up screws –these can cause damage to both the paintwork and the special anti-corrosion plating.
- Tighten all nuts and bolts securely. Replace as needed. If not checked regularly, bolts can be loose or missed and components can become detached and cause injuries.
- Check the unit at the beginning of the usage season and monthly thereafter for evidence of deterioration.
- Immediately remove and replace any items that appear to be weak or broken. Contact Customer Support for replacement parts.
- Check all covers designed for bolts and sharp edges regularly to be certain they are present and in good condition. Replace as needed. It is particularly important that all covers are checked prior to the first use each season.
- Inspect handle bar, hardware, and etc., for proper closure and for signs of wear, deterioration, rust and/or damage. Replace as needed.
- Lubricate all metallic moving parts monthly during the usage season. Applying a light coat of automobile wax to all metal tubing surfaces will help protect your unit and add to its longevity. Sand any rusted areas of the metal tubing and repaint using a non-lead based paint.
- Remove plastic seats and store indoors, or do not use when the temperature drops below 32°F/0°C.
- Check unit for scuffs, burrs, sharp edges and any other defects that may occur from assembly, abuse, shipping or everyday use. Burrs and sharp edges may be filed down until smooth and covered with duct tape if necessary.
- To help maintain the products appearance, occasionally clean the seats and metal framework with a damp cloth lightly – but DO NOT use abrasive chemical cleaners.
- When the time comes to disassemble and dispose of this product, please completely disassemble the unit and discard of it in a safe place and manner so as not to present any hazard to any individual. It is important to check and maintain the main parts at regular intervals. If these checks are not carried out, the toy could overturn or otherwise become a hazard. Whenever practical, the instructions shall also be affixed to the toy.
- **IMPORTANT! KEEP FOR FUTURE REFERENCE.**
